EXPERIENCE THE
S.P.I.N.E.
SYSTEM

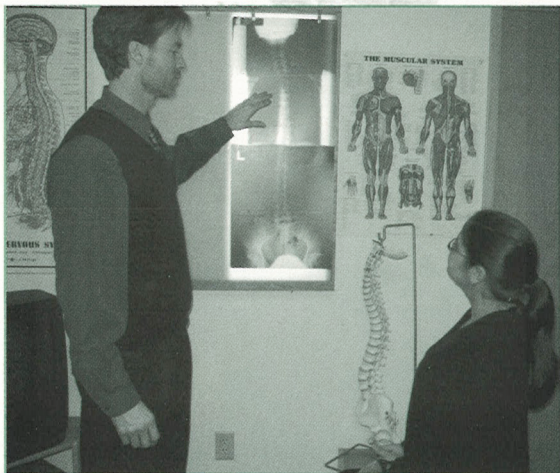

at FLYNN CHIROPRACTIC

our foundation
for wellness

Spinal Correction

Posture is like a window into your spine, and therefore, a reflection of your health.

Dr. Flynn has helped hundreds of people of all ages correct their posture through:

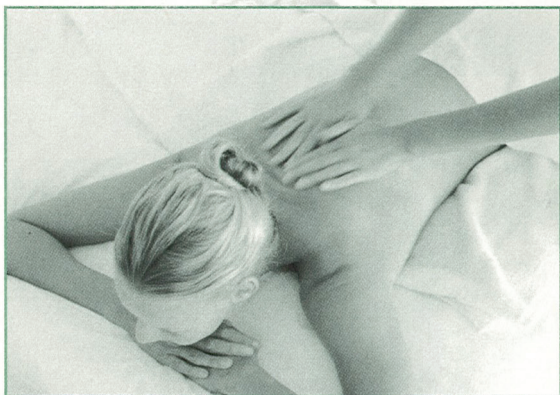

- Gentle chiropractic adjustments
- Personalized instruction
- dynamic muscle therapy

Then nerves are restored to their normal function allowing you to heal

Pain Relief

Dr. Flynn specializes in treatment of injuries from auto accidents, sports and work injuries, chronic conditions, and children's conditions (ie: scoliosis). We have excellent licensed massage therapists on staff.

Injury Prevention

"The doctor of the future will give no medicine, but interest his patients in the care of the human frame, in diet, and in the cause and prevention of disease"

~ Thomas Edison ~

Since 1995, Dr. Flynn has been helping our community prevent injuries through educational events at his office and organizations like Home Depot, the Kent Fire Department, and M.O.P.S.

Call our office to find out where our next educational event will be.

Nutritional Counseling

Through personal nutritional analysis, we guide you toward your goals of improved health.

Dr. Flynn also conducts workshops on topics involving eating for energy, smart shopping, and TLC.

Exercise Therapy

A simple yet powerful home exercise regimen is tailor-made to strengthen your spinal weak points, and is demonstrated by Dr. Flynn personally to ensure proper form.

What people are saying about FLYNN CHIROPRACTIC CLINIC

“Due to an auto accident at 90 mph, my neck hurt for 30 years, leading to headaches and dizziness. Since getting regular adjustments at Flynn Chiropractic, the pain and the dizziness are gone. The care I received I would rate 100% PLUS.
~ I.C.

Chiropractic is just the first step in leading a healthier lifestyle. Dr. Flynn provides the best possible chiropractic care, and he is a great teacher who takes the time to educate his patients. ~ *Eva M.*

Since coming to Dr. Flynn, I no longer need to take pain med's daily and can spend more pain-free time with my loved ones. I also got my teenage sons checked for subluxation. They have both made great progress already and can now avoid the years of pain and suffering that I needlessly endured. ~ *Lori S.*
